

EMERLIN

Custom Storage Sheds & Outdoor Buildings

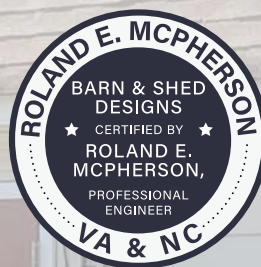

**Built for your life, and all the
things that come with it**

Whether it's storage or more workspace and living area,
make the most of your backyard space with a high
quality, long-lasting shed that's custom built on-site
at your property.

Emerlin Custom Storage Sheds & Outdoor Buildings, a family-owned business, has been making high-quality storage buildings since 1979. We are the shed and outdoor building specialists. The attention we take with our product is why we've grown to be one of the most respected builders of outdoor storage buildings in Virginia & North Carolina.

- ✓ Only The Best Materials Are Used

Seven Shed Styles to Choose From

"A Roof" Shed

Our most popular shed style because it can be used for just about anything and it's affordable.

Classic Barn Style Shed

Add interior lofts that maximize tons of extra vertical storage space with this classic barn-shaped building.

Cape Cod Shed

Resembling the Cape Cod style home, this model features extra pitch allows for more loft storage.

Fully Lofted Garage Shed

Maximum usability and storage with our only shed that includes a full set of stairs inside to a second story loft area.

Hip Roof Shed

A very sturdy, modern day shaped shed best suited for playhouses and pool houses.

Short Wall Barn Shed

Designed purely for storage and takes advantage of its barn roof structure to provide headroom even with 4' walls.

Specialty Sheds & Buildings

Are you ready for a shed that's built for your life, and all the things that come with it?

We make the process of choosing, customizing and ordering your shed easy!

Your Perfect Shed In Four Easy Steps

1 Selecting Your Building

The most important question that will determine what style and size of building you choose is deciding on what will be the main use for your shed. Will it be for storage or used as an extra work or living space?

2 Choosing Your Options

There are a number of options to consider when designing your shed, such as the number of doors and windows you need, exterior colors, interior features such as work benches and shelving, as well as electrical and climate control. Our design specialists can walk you through all of the options available.

Need Help With Your Permits?

We are the ONLY Shed company that helps take care of your permitting from start to finish. Talk to us today!

3 Quoting and Placing Your Order

Our shed consultants will guide you through the entire building selection process as well as the options available and provide you with a quote for your building. Upon approval, work order sign off and 10% deposit, we'll get your project into our schedule!

4 Building Your Shed On-Site

Our team is ready to build your shed right on your property, which is backyard-friendly and more flexible than pre-assembled delivery. Construction takes about a day, depending on the size of your storage shed. Our friendly, professional in-house crew will arrive on-site first thing in the morning, work quickly and efficiently, and will not leave a mess when they're done.

Let's Build Your Perfect Shed

Why Buy From EMERLIN

- ✓ You'll enjoy total accountability, and no drama. All construction is done by our carefully selected and supervised team of full time employees.
- ✓ You have the assurance of working with a local licensed contractor with 1000s of satisfied customers.
- ✓ You have the peace of mind of our 10 Year Warranty backed by our 45 year reputation.
- ✓ You'll be proud of your shed, from the design and the materials used, all the way through to the finish quality of the final product.
- ✓ You can customize your shed to exactly how you want it, with a broad selection of styles and additional features available.
- ✓ You'll have personal help from knowledgeable professionals to ensure you make the best selections based upon what's MOST important to YOU.
- ✓ You can rest easy knowing that our sheds have withstood multiple hurricanes because they are built to the demanding local wind and flood standards, as certified by a licensed VA and NC Engineer.
- ✓ Your built on-site shed starts with the construction of a proper post pier permanent foundation built to last a lifetime.
- ✓ You don't need to continue wasting money on temporary storage when you could own a shed. Great financing options are available to help you get your perfect shed.

1979

2021

Willie and Carolyn's barn style shed bought back in 1979, is still in great shape today!

Willie and Carolyn purchased one of our first sheds in 1979. They've performed basic routine maintenance and their shed is still in phenomenal shape today! It's survived literally dozens of hurricanes throughout its 45 years of life with only a few shingles blown off. We still build them like we used to – the right way!
